sample of submitted Patent In "workfile"

see attached page for instructions

work

Please do not submit a PatentIn "~~prj~~" file. It is a "work-in-progress" file only; you will need to submit a <u>generated</u> Sequence Listing. To generate one, go to "Application Steps" on PatentIn main menu. Click on "Generate Sequence Listing" and then click "Start" button. PatentIn will validate each sequence; hopefully, you will see "Successful completion" in the white box above the "Start" button. *Use the PatentIn ".prj" file to generate the sequence listing.*

You can then view the generated Sequence Listing by going to "Project" on main menu, and clicking on "View/Print Sequence Listing." A generated PatentIn Sequence Listing will have an ".ST25" file extension.

For further assistance, please contact Mark Spencer at 571-272-2510.

Please do NOT include the ".prj" or "work" files, when submitting the generated sequence listing file or computer readable form.
